"Finding the natural voice reveals inner impulses of  
emotion and thought"

Who is the Workshop for?

For Actors, aspiring actors, experienced and absolute beginners  
WHAT WILL THEY DO

The workshop will be highly participative in exercises to explore how  
the voice works to free, develop and strengthen it as a human  
instrument

The workshop will also cover warm-up exercises to help concentrate  
the mind and free the body and the voice.

Participants in the workshop will learn approaches to:

Overcome problems of straining the voice when expressing strong  
emotions

Develop a voice that will create the desired effect, with maximum  
flexibility

Ultimate aim is to free oneself through the voice and find truth in the  
text

The evening will also be very entertaining and engaging at the end of  
which all will be invited to adjourn to the nearest bar for liquid  
refreshment.

The Workshop facilitator will be Steve Andrews who is an experienced  
drama teacher and coach. There will be a small cover charge of £3 to  
cover costs.
